DARSHNA PARIHAR

Software Developer | Full-Stack Development
+91 73003 04978 | darshnaparihar1308@gmail.com | linkedin.com/in/darshnapariharcu | github.com/Darshna1308

CAREER OBJECTIVE

Computer Science Engineering undergraduate seeking a Software Development internship to build and ship full-stack web applications. Hands-on experience with React, Node.js, Express and MongoDB, including REST API design, JWT authentication, automated API testing and deployment on Vercel and Render.

EDUCATION

Chandigarh University | B.E. in Computer Science Engineering | CGPA: 7.92/10 2024 – 2028
Central Academy | Senior Secondary (CBSE) | Class XII: 87%, Class X: 88%

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL, C++, C
Frontend: React, Vite, HTML5, CSS3, Responsive Web Design
Backend & APIs: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication, bcrypt, Zod Validation
Databases: MongoDB, MongoDB Atlas, Mongoose, GridFS
Data & AI: pandas, NumPy, scikit-learn, Matplotlib, LLM APIs (Groq)
Testing & Tools: API Testing (node:test, Supertest), Postman, Git/GitHub, Docker Compose, Vercel, Render
Problem Solving: 100+ LeetCode problems solved; HackerRank: Problem Solving, Python, SQL, C++

EXPERIENCE

Frontend Developer Intern | Nidhi Builders Jun 2026 – Jul 2026

- Developed and deployed a six-section construction business website (Home, About, Services, Projects, Process, Contact) using React, Vite, JavaScript and CSS, live on Vercel.
- Built React components for navigation, service cards, architectural project showcases, a featured-residence walkthrough and contact details, with a consistent navy-and-gold visual system across responsive layouts.
- Integrated a working customer enquiry form and WhatsApp contact for direct client enquiries.

Summer Intern | Pledge A Smile May 2026 – Jun 2026

- Raised ₹11,000+ through personal outreach and donation collection; received an LOR and completion certificate.

PROJECTS

Echo — Personal Memory Vault Live Demo | GitHub

Tech: React, Vite, Node.js, Express.js, MongoDB Atlas, Mongoose, GridFS, JWT, Zod, node:test, Supertest

- Built a full-stack memory archive with a year/month timeline, BM25-ranked keyword search, filters, memory CRUD, multi-photo uploads, voice notes and time-locked capsules; deployed on Vercel and Render with MongoDB Atlas.
- Secured the REST API with JWTs in httpOnly cookies, bcrypt password hashing, per-user authorization on every route, Zod input validation and rate limiting; verified account isolation with 71 automated API tests.
- Stored photos in MongoDB GridFS with server-side file validation and EXIF/GPS metadata stripping.

AgentOps — AI Agent Monitoring & Evaluation Platform Live Demo | GitHub

Tech: React, Vite, Node.js, Express.js, FastAPI, Python, MongoDB Atlas, Groq API, Docker Compose

- Built an AI observability platform to execute, track and evaluate Groq LLM-powered agent runs, persisting run history with per-run latency and token usage in MongoDB for debugging and comparison.
- Architected three services (React frontend, Express orchestration API, Python FastAPI AI service) communicating over REST; containerized with Docker Compose and deployed on Vercel and Render.

IntelliFlow — Workflow & Approval Management Platform Live Demo | GitHub

Tech: React, Vite, Node.js, Express.js, MongoDB Atlas, JWT, bcryptjs

- Built an approval platform to replace requests scattered across WhatsApp, email and spreadsheets, with MongoDB models for users, requests, workflow types, documents, comments and audit logs; secured with JWT and bcrypt.
- Implemented a six-state request lifecycle from Draft to Approved, including change requests and resubmission, and tested leave and expense approvals end-to-end via REST APIs with audited state transitions.

ACHIEVEMENTS, LEADERSHIP & CERTIFICATIONS

- **Build For Bharat 2.0:** Team selected for Round 2 among 1,100+ teams with NEXUS DELTA, a data-driven workforce capability decision engine (Live Demo | GitHub).
- **Rajasthan State-Level Hackathon:** Finalist; also competed in the Herizon and She Codes hackathons.
- **Operational Lead, NexaSoul** (Full Stack Development Club, Chandigarh University): coordinated planning and on-ground delivery of 5+ technical workshops; anchored technical events and served as a judge.
- **Certifications:** Python Programming & Data Science (Coursera); Generative AI & Prompt Engineering.
